

ZEISS Medical Technology Open House

Quality Solutions for
Medical Standards

Wednesday, May 25th
ZEISS Quality Excellence Center
Wixom, MI

Manage your medical regulatory requirements

Looking for ways to stay ahead or need a competitive edge in the ever-changing medical industry?

Expand your quality solutions knowledge with ZEISS experts in person! You'll see demonstrations of the latest ZEISS technologies and hear from those who work with your measurement applications every day.

Learn how to:

- Solve new inspection challenges brought on by medical requirements and new manufacturing methods
- Apply the proper inspection technologies to optimize your measurement processes
- Leverage quality data to gain real-time insights and drive process improvements
